

VOCTRONICA

Voctronica is India's first all vocal ensemble. The band was set up by world-renowned beat boxer, Shlomo (UK), along with MC Testament (UK). Comprising of a melodious blend of beat-boxers, Indian classical, pop, blues and rock vocalists, Voctronica bring to you the real power of the human voice.

Their live performance showcases a mix of originals along with popular English and Hindi covers presented in a highly interactive performance and the band has developed a sound and style that is entirely unique and undeniably infectious. Despite drawing from an eclectic set of musical genres like pop, folk, Bollywood, dubstep and electronica, the band merges their musical sensibilities to put forth one-of-a-kind interpretations of tracks across multiple genres.

Their ability to produce exclusive and customized material addressing the ethos of a brand makes them one of the most exciting acts to collaborate with.
